BUSINESS REVIEW AND PROSPECTS

During the first half of 2011, amid the fluctuating global economy, the worldwide inflation pressure was further intensified under the subsisting influence of the quantitative easing monetary policies adopted by certain developed countries. Prices of significant commodities such as international crude oil experienced alternate rises with subsequent repetitious volatility. The average spot price of Brent crude oil was US\$111.25/barrel for the first half of 2011, representing an increase of 43.9% as compared with the same period of last year. Under the ever-changing market conditions, our entire staff overcame all difficulties with concerted efforts through strengthening our internal management processes and promoting efficient capital utilisation so as to enhance economic benefits. During the first half of 2011, despite a reduction in operating revenue upon the restructuring of our business, we attained a substantial growth in our operating results. While Sinopec Kantons Holdings Limited (the “Company”) and its subsidiaries (the “Group”) recorded a turnover amounting to HK\$9,882,456,000 which represented a decrease of 4.8% as compared with the same period of last year, a profit of HK\$130,785,000 was attained with a period-on-period increase of 36.6% during the period.

During the first half of 2011, our entire staff strictly pursued the goal of “becoming a first-class international oil, petroleum and petrochemical storage and logistics listed company” as decided by the board of directors of the Company (the “Board”). The Group has been focusing on the development of storage and logistics projects and achieved a satisfactory performance result. During the first half of 2011, the Group entered into an acquisition agreement with Zhanjiang Port (Group) Co., Ltd. to acquire a 50% equity interest in Zhanjiang Port Petrochemical Terminal Co. Ltd at a consideration of RMB331,986,000 (approximately HK\$399,213,000). Currently, owing to the smooth progress of approval procedures in respect of the establishment of the joint venture, Zhanjiang Port Petrochemical Terminal Co. Ltd is expected to formally become our joint venture in the coming year, bringing a positive effect on the rapid expansion of the Group’s storage business and further improvement of its profitability. In addition, as for the storage facility construction project in Indonesia, negotiations were still in progress with other parties during the first half of the year. As for the logistics project, after entering into a joint venture agreement with China Shipping Development Company Limited by the year end of 2010, the joint venture was formally established while the ship building preparation work for transportation of liquefied natural gas is progressing smoothly. Besides, in order to meet the needs of the business restructuring, we explored additional opportunities by expanding

MANAGEMENT DISCUSSION & ANALYSIS

our logistics business to achieve a higher operating revenue. During the first half of 2011, the Group commenced its vessel charter business by engaging in the transportation of imported crude oil. During the first half of the year, each of our two chartered vessels started its voyage, which was a breakthrough in the vessel charter business.

During the first half of 2011, China Petroleum & Chemical Corporation Guangzhou Branch, the major client of Huade Petrochemical Company Limited (“Huade”), carried out planned maintenance for its oil refinery facilities, the unloading volume and pipeline transportation volume of Huade experienced a slight reduction. During the first half of the year, Huade handled 40 oil vessels, with approximately 5.75 million tonnes of crude oil unloaded and approximately 5.73 million tonnes of crude oil transported, representing a decrease of approximately 1.9% and approximately 0.5% respectively as compared with the same period of last year. In light of the weakened business, Huade proactively reinforced its internal management and strived to reduce costs and expenses so as to achieve better results. During the first half of the year, it recorded an operating profit of HK\$144,855,000, representing an increase of 26.1% compared to last period and a significant contribution to the substantial growth of the Group’s operating results.

To focus on the development of the storage and logistics project, only the trading of crude oil and the newly established vessel charter business were remained in the Group’s current trading business division. During the first half of 2011, trading volume of our crude oil reached approximately 1.61 million tonnes, representing a decrease of 11.3% as compared with last period. The trading business recorded revenue of HK\$9,590,263,000, representing a decrease of 5.1% as compared with last period, among which the revenue derived from the vessel charter business amounted to HK\$61,078,000 with a gross profit of HK\$12,675,000.

With the joint efforts of our entire staff, in the first half of 2011, the Group strived to promote the development of the storage and logistics project and recorded a substantial growth in operating results, which was very remarkable. In the second half of the year, we should be in firm confidence and hold a positive attitude to further step up our pace in the storage and logistics project, so as to attain comprehensive fulfillment of our operation goal for the year and strive for the strategic goal for development formulated by the Board.

LIQUIDITY AND SOURCES OF FINANCE

As at 30 June 2011, cash on hand and bank balances of the Group totalled approximately HK\$752,166,000 (31 December 2010: HK\$724,711,000) and interest-bearing borrowings from a fellow subsidiary were approximately HK\$263,946,000 (31 December 2010: HK\$156,034,000), of which all were short-term borrowings. The significant increase in interest-bearing borrowings was due to the needs arising from the vessel charter business developed in the first half of the year. As at 30 June 2011, the Group had no bank borrowings.

INTEREST IN ASSOCIATE

As at 30 June 2011, the Group's interest in associate amounted to HK\$11,700,000 (31 December 2010: HK\$Nil). According to a joint venture agreement entered into by the Group and China Shipping Development Company Limited on 30 November 2010, the Group contributed HK\$11,700,000 to establish East China LNG Shipping Investment Co., Limited during the period. Please refer to the related announcement of the Group dated 30 November 2010 published on the website of The Stock Exchange of Hong Kong Limited for details.

GEARING RATIO

As at 30 June 2011, the Group's current ratio (current assets to current liabilities) was 1.38 (31 December 2010: 3.16) and gearing ratio (total liabilities to total assets) was 42.7% (31 December 2010: 10.2%). The substantial changes in current ratio and gearing ratio were due to the substantial increase in both trade receivables and trade payables resulting from the crude oil trading in June 2011 while no crude oil trading in December 2010.

TRADE AND OTHER RECEIVABLES

As at 30 June 2011, the Group's trade and other receivables totalled HK\$1,993,831,000 (31 December 2010: HK\$188,176,000). The significant increase in trade and other receivables was mainly due to the unsettled trade receivables arising from crude oil sales in June 2011, while no crude oil sales were made in December 2010. For detailed aging analysis of trade receivables, please refer to note 11 to the unaudited interim financial report.

TRADE AND OTHER PAYABLES

As at 30 June 2011, the Group's trade and other payables totalled HK\$1,728,540,000 (31 December 2010: HK\$125,122,000). The significant increase in trade and other payables was due to the unsettled trade payables arising from crude oil purchases in June 2011, while no crude oil purchases were made in December 2010.

PROFIT FOR THE PERIOD

For the six months ended 30 June 2011, the Group recorded a profit amounting to HK\$130,785,000 (six months ended 30 June 2010: HK\$95,748,000), representing an increase of 36.6% as compared to last period. The substantial increase in profit was due to the proactive cost cutting measures imposed by the Group which led to a reduction in operating cost during the period. In addition, the decrease in the finance costs also had a positive impact on the profit growth.

FINANCE COSTS

During the first half of 2011, the finance costs of the Group amounted to HK\$1,382,000 (six months ended 30 June 2010: HK\$10,697,000). The decrease in finance costs was due to decrease in average loan balance from HK\$1,123,173,000 for the six months ended 30 June 2010 to HK\$209,990,000 for the six months ended 30 June 2011.

FOREIGN CURRENCY RISK

The functional currency of the Group's subsidiary incorporated in British Virgin Islands, Kantons International Investment Limited ("KII"), is Hong Kong dollars. At 30 June 2011, KII held a Renminbi bank deposit amounted to RMB615,392,000 (equivalent to HK\$740,010,000). The Group is therefore exposed to foreign currency risk arising from holding such bank deposit. Save for the above, each entity within the Group was not exposed to significant foreign exchange risk.

EMPLOYEES AND EMOLUMENT POLICIES

As at 30 June 2011, the Group had a total of 187 employees. Remuneration packages, including basic salaries, bonuses and benefits-in-kind, are structured by reference to market terms, trends of human resources costs in various regions and employees' contributions based on performance appraisals. Subject to the profit of the Group and the performance of the employees, the Group may also provide discretionary bonuses to its employees as an incentive for their continuous contribution.

**REVIEW REPORT TO THE BOARD OF DIRECTORS OF
SINOPEC KANTONS HOLDINGS LIMITED**

(Incorporated in Bermuda with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 9 to 37 which comprises the consolidated statement of financial position of Sinopec Kantons Holdings Limited as of 30 June 2011, and the related consolidated income statement, consolidated statement of comprehensive income and consolidated statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The Directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

REVIEW REPORT

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2011 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars)

1 BASIS OF PREPARATION

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 18 August 2011.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2010 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2011 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the group since the 2010 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars)

1 BASIS OF PREPARATION (continued)

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA. KPMG's independent review report to the Board of Directors is included on pages 7 and 8.

The financial information relating to the financial year ended 31 December 2010 that is included in the interim financial report as being previously reported information does not constitute the company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2010 are available from the company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 22 March 2011.

2 CHANGES IN ACCOUNTING POLICIES

The HKICPA has issued a number of amendments to HKFRSs and one new Interpretation that are first effective for the current accounting period of the group and the company. Of these, the following developments are relevant to the group's financial statements:

- HKAS 24 (revised 2009), *Related party disclosures*
- Improvements to HKFRSs (2010)

The group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

These developments related primarily to certain disclosure requirements applicable to the group's financial statements. These developments have had no material impact on the contents of this interim financial report.

3 SEGMENT REPORTING

The group manages its businesses by divisions, which are organised by business lines (products and services). In a manner consistent with the way in which information is reported internally to the group's most senior executive management for the purposes of resource allocation and performance assessment, the group has identified three reportable segments, namely trading of crude oil, petroleum and petrochemical products, rendering of crude oil jetty services and rendering of vessel charter services. No operating segments have been aggregated to form the following reportable segments.

- Trading of crude oil, petroleum and petrochemical products: this segment trades crude oil, processes and trades petroleum and petrochemical products. Currently, the majority of the trading activities are carried out in Hong Kong and the People's Republic of China ("PRC").
- Crude oil jetty services: this segment provides crude oil transportation, unloading, storage and other jetty services for oil tankers. Currently, the group's activities in this regard are carried out in the PRC.
- Vessel charter services: this segment provides vessel chartering for crude oil transportation and floating oil storage facilities for oil traders. Currently, the group's activities in this regard are carried out in the Middle East and the PRC.

(a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the group's senior executive management monitors the results, assets and liabilities attributable to each reporting segment on the following bases:

Segment assets include all tangible assets and current assets with the exception of investment properties, interest in associate, deferred tax assets, tax recoverable and other corporate assets. Segment liabilities include trade and other payables attributable to the activities of the individual segments and interest-bearing borrowings managed directly by the segments.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars)

3 SEGMENT REPORTING (continued)

(a) Segment results, assets and liabilities (continued)

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. However, other than reporting inter-segment crude oil jetty services, assistance provided by one segment to another, including sharing of assets, is not measured.

The measure used for reporting segment profit is “segment operating profit”. Segment operating profit includes the operating profit generated by the segment and finance costs directly attributable to the segment. Items that are not specifically attributed to individual segments, such as unallocated other revenue, unallocated other net income, unallocated depreciation and amortisation, unallocated finance costs and other corporate expenses are excluded from segment operating profit.

The unallocated income, expenses, assets and liabilities are disclosed in the reconciliation of reportable segment revenues, profit or loss, assets and liabilities in note 3(b) to this interim financial report.

In addition to receiving segment information concerning segment operating profit, management is also provided with segment information concerning revenue, interest income, depreciation and amortisation and additions to non-current segment assets used by the segments in their operations.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars)

3 SEGMENT REPORTING (continued)

(a) Segment results, assets and liabilities (continued)

Information regarding the group's reportable segments as provided to the group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the period is set out below:

| For the six months ended 30 June | Trading of crude oil, petroleum and petrochemical products | | Crude oil jetty services | | Vessel charter services | | Total | |

| Origination and reversal of temporary differences | (1,705) | – |
| | 36,623 | 29,894 |

5 INCOME TAX (continued)

No provision has been made for Hong Kong Profits Tax as the group's subsidiaries in Hong Kong incurred a loss for taxation purposes during the six months ended 30 June 2011. The provision for Hong Kong Profits Tax for the six months ended 30 June 2010 is calculated at 16.5% of the estimated assessable profits for the period. Taxation for the PRC and overseas subsidiaries are charged at the appropriate current rates of taxation ruling in the relevant countries.

Pursuant to the notice on the Implementation Rules of the Grandfather Relief under the PRC Corporate Income Tax Law, Guofa (2007) No. 39, issued on 26 December 2007 by the State Council, the applicable income tax rate for the group's foreign-invested enterprise in the PRC (the "PRC subsidiary") is 18%, 20%, 22%, 24% and 25% for 2008, 2009, 2010, 2011 and 2012, respectively.

The group is subject to withholding tax at a rate of 10% (unless reduced by treaty) on distribution of post-2007 profits by the PRC subsidiary. At 30 June 2011, temporary differences relating to the post-2007 undistributed profits of the group's PRC subsidiary amounted to \$607,361,000 (31 December 2010: \$489,692,000). Deferred tax liabilities of \$60,736,000 (31 December 2010: \$48,969,000) have not been recognised in respect of the tax that would be payable on the distribution of these retained profits as the company controls the dividend policy of this PRC subsidiary and the company's directors have determined that the PRC subsidiary will not declare dividends out of its post-2007 profits in the foreseeable future.

16 MATERIAL RELATED PARTY TRANSACTIONS (continued)

(a) (continued)

Notes:

The above transactions were conducted in accordance with the following terms:

- (i) The crude oil, fuel oil, petroleum and petrochemical products trading transactions were carried out in accordance with the terms of the relevant sale and purchase agreements and on terms agreed between the parties having regard to commercial practice of the crude oil industry and international market conditions during the period the transactions were carried out.
- (ii) The insurance premium was calculated by reference to the provision of a document jointly issued by the company's ultimate holding company and the Ministry of Finance in the PRC in 1998 and at a predetermined percentage as revised by the company's ultimate holding company from time to time.
- (iii) The group engaged a fellow subsidiary to refine and process crude oil into various types of petroleum products on behalf of the group. The crude oil refining and processing fees were charged in accordance with the terms of the relevant refining and processing agreements.
- (iv) The jetty service fees were charged in accordance with the relevant service agreements and at rates based on the state-prescribed price regulated and standardised by the Ministry of Communications and Guangdong Price Bureau in the PRC.
- (v) The vessel charter fees were charged in accordance with the relevant vessel charter agreements and were determined by reference to the prevailing market rate on a transaction-by-transaction basis.
- (vi) The interest expense was charged by a fellow subsidiary at LIBOR plus a spread of 1.05-1.35% (six months ended 30 June 2010: 0.95-1.15%) per annum.
- (vii) The rental expenses were charged by a fellow subsidiary for leasing of office premises and a factory. The leases run for a period of three to thirty-two years and the monthly rent was determined at the market rate at the date when the lease agreement was entered.

16 MATERIAL RELATED PARTY TRANSACTIONS (continued)

- (b) The group operates in an economic regime currently dominated by entities directly or indirectly controlled by the PRC government through its government authorities, agencies, affiliations and other organisations (collectively referred to as “state-controlled entities”).

Apart from transactions with the group’s intermediate holding companies and fellow subsidiaries, the group has entered into transactions with other state-controlled entities including but not limited to the following:

- sales and purchases of crude oil, petroleum and petrochemical products;
- rendering and receiving services; and
- use of public utilities.

These transactions are conducted in the ordinary course of the group’s business on terms comparable to those with other entities that are not state-controlled. The group has established its procurement policies, pricing strategy and approval processes for purchases and sales of products and services which do not consider or depend on whether the counterparties are state-controlled entities or not.
